

SPOT THE DANGER!
Safety Walk Invitations

- CUT -

Join Our Safety Walk

It's not that children are careless; they are carefree. They need to be made aware of the hazards at home and around the neighbourhood. Take a SAFETY WALK with your family to point out any dangers in your community. You may spot some hazards that you didn't notice before.

A Program of the War Amps.

"My son Shawn was killed... electrocuted. It's too late for Shawn, but I plead to all parents: check out the potential hazards in your community. Take the walk I didn't."

J.K. McLeod

We are planning a SAFETY WALK with our family. Please join us. For details, contact:
Our SAFETY WALK date: _____
